SUMMARY

Motivated final-year Systems Engineering student with a passion for technology and software development. Proactive, self-taught, and experienced in multiple programming languages including Python, Java, and JavaScript, as well as Git version control. I have experience in both frontend and backend projects, and an understanding of the development cycle. I am passionate about applying creativity, curiosity, and technical skills to drive innovative solutions and solve problems.

EDUCATION

● BACHELOR'S DEGREE IN SYSTEMS ENGINEERING

Francisco José de Caldas District University, Bogotá Colombia.

September 2020 - Present.

Expected Graduation: Jun, 2005.

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Systems, Software Development Lifecycle, Systems Analysis and Design, Network Systems, Information Security, Database Management Systems.

● HIGH SCHOOL DIPLOMA

ICFES Validation, Bogotá D.C.

Colombia (2019)

EXPERIENCE

HEAD CASHIER, TEXART S.A.S

TEXART S.A.S (May 2017 - September 2020)

- Managed the store's central cashier operations, including processing payments and providing customer advice on products.
- Handled administrative tasks focused on resolving customer complaints (PQRs), requests, and questions related to the payment area.
- Involved in inventory management and product handling within the store.
- Supervised and trained staff in cashier operations and customer service.

STRENGTHS

Problem-solving

Capacity to identify issues in frontend development, analyze possible solutions, and implement effective fixes

Additional Skills

Communication, teamwork, time management, and adaptability to different environments.

LANGUAGES

English: Intermediate.

With technical terminology in software engineering.

Spanish: Native Language
